

Secondary school immunisations are usually provided for students in Year 7 and Year 10.

Due to interruptions to school-based learning in 2020 and 2021, some students who are now in years 9-12 may need to complete their vaccine program this year to ensure they are protected.

To see if your child is due for any immunisations, check your child's immunisation history statement on the Australian Immunisation Register using your My Gov account. If your child is over 14 years of age they will need to access their own My Gov account or the Medicare mobile app.

Learn more about school-based vaccinations and why they're important:

www.betterhealth.vic.gov.au/health/healthyliving/immunisation-in-secondary-schools#immunisation-for-secondary-school-students-is-important

If your child missed out on their Year 7 or Year 10 immunisations, Kingston City Council are happy to vaccinate these students during this year's School Program.

Please complete this consent form online and submit directly to Kingston Council. We can immunise them on the same day as 2023's year 7 students (contact school for dates)
