

FOUNDATION

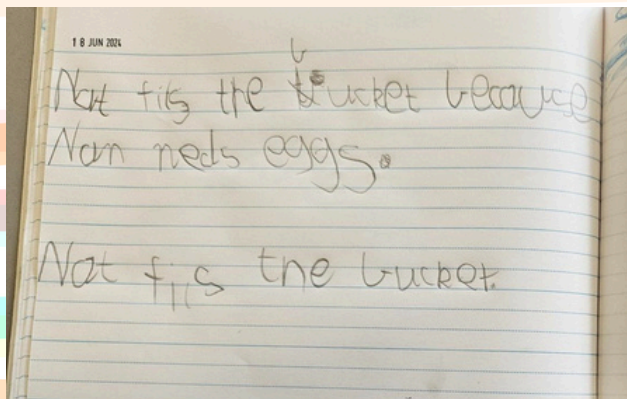

Literacy & Numeracy Update

In Text Construction, students are using the conjunction 'because' to explain why something has happened. In Numeracy, students are making connections between number names, numerals and collections. They have been curious about the spelling of our number names and gaining confidence recognising them when they are presented as a word.

Upcoming Learning

Students will finish our Content Knowledge Unit, My Place, My Country, My World by creating their own world map. It will include a landmark and animal that belongs to each continent.

Skill in Focus

Changing the Final Sound

Students have been manipulating and changing the sounds in words. For example if the word is 'pen', students change the /n/ to /g/ and it becomes 'peg'. This is supporting students to create word chains.
