School Refusal Clinic

HELPING STUDENTS RETURN TO SCHOOL

We specialise in assisting young people from Prep-Year 12, who are experiencing anxiety-based school avoidance and refusal. Our unique approach offers outdoor 'walk and talk' and dog-assisted therapy. Sessions are designed to be fun, engaging and tailored to the personal interests of each young person. Sessions are offered around St Kilda including, the Botanical Gardens, St Kilda foreshore, the local park and in the clinic.

OUR PROCESS:

- Initial parent consultation.
- Child engagement & goal setting session.
- "Walk and talk" with Max the therapy dog.
- A personalised return to school action plan.
- Child-focused parent support.
- School based meeting with parent/s, the young person and key teaching and well-being staff.

Plus:

- Group personal training sessions for teens.
- Telehealth sessions available
- Staff professional development talks and training.
- Secondary consultations with well-being professionals.
