Reviewed Annual Improvement Plan – in summary

- Have started to see the benefits of new structure in classroom and layout
- Model, share, direction. Clear structure and agreed practice between kids and teachers. Level of engagement has improved. Calmness and flow of learning has improved
- Big improvements – High benchmark was set and students and teachers have achieved using chosen strategies - VCOP, big write guided instruction, shared instruction, PAT and PM reading. Even with the COVID disruption we have seen wonderful improvement from students. Kids are averaging on and above where they should be
- Kindy kids have also been working extremely well - their writing and reading is on par and teachers are very proud of them.
- Learning growth has been impressive across entire school and reading growth has improved on 2019
- Consistent teaching styles across entire school has proven to benefit all kids
- Learning spaces continue to be consistent
- Current strategy has been successful in the reading area, now focus can shift writing
- High functioning teams across school
- Three challenges/focus for 2021
- Introduction of fourth Kindergarten teacher – will not be 4 classes rather a team of 4 for 3 classes
