Hello! I'm so excited to start 2025 with you all! I have been teaching at Woodend PS for a few years now, and am stepping into a new role this year - Mental Health and Wellbeing Lead (MHWL).

I will be working with the whole school community (students, staff, families, support services) to nurture and strengthen students' mental health and wellbeing. You will hear from me regularly throughout the year as we introduce new projects and build on current practices.
