➤ **Bachelor of Science**

Maybe you've always known that you wanted to be a marine biologist. Or perhaps you're still deciding whether you want to be an engineer or a geologist. A doctor or a vet? A data scientist or a physicist? A chemist or a psychologist?

The [Bachelor of Science](#) is a pathway to all these careers, and hundreds more. With more than 40 majors on offer, students can select from the full range of *science, biomedicine, mathematics, engineering, and IT subjects*.

The Bachelor of Science is a **3-year degree**, in which students complete **24 subjects**. Of the 24 subjects, some will contribute to their **major** (chosen specialisation), some will be **science electives** (other science subjects), and some will be **breadth** (non-science) subjects. A very useful link to browse is [Tips for Choosing a Science Major](#).

All Bachelor of Science students complete a discovery subject: ***Today's Science, Tomorrow's World*** in their first semester. **Find out more by viewing this [video](#)**.

Project Management Courses in Victoria in 2023

There are so many similar definitions or statements of what a project manager does, and one useful website* states that project managers *ensure the project is completed on time and within budget, that the project's objectives are met and that everyone else is doing their job properly. Project managers oversee the project to ensure the desired result is achieved, the most efficient resources are used, and the different interests involved are satisfied.*

The website goes on to mention the typical industries project managers work or are employed in –

- Construction companies
- Architects
- Software producers
- Commercial retailers
- Engineering firms
- Manufacturers
- Public sector organisations
- Aviation
