

19 January 2026

TO WANTIRNA COLLEGE
90 Harold Street
WANTIRNA VIC 3152

Dear Mr. Cameron,

Templeton Street upgrade commencing soon

Works to repair the road and improve safety on Templeton Street, Wantirna, between Burwood Highway and Crestdale Road, will commence in February 2026.

The work is expected to be completed by the end of May, weather permitting.

Works include:

- Reconstruction of road and bike lane surfaces including asphalt works
- Replacement of damaged kerb and channel (gutters)
- Crossing improvements
- Reconstruction of stormwater drains

How will this impact Wantirna College staff, students, parents/guardians and visitors?

Works will take place along Templeton Street from Monday to Friday between 7 am and 5 pm. Minor sound disturbances may occur during these times.

Temporary traffic conditions will be in place:

- Traffic controllers will be onsite during the works period to manage vehicle, bike and pedestrian access along Templeton Street.
- Minor traffic delays and reduced speed limits may occur. We recommend seeking alternative routes to the school via Harold Street.
- There will be reduced on-street parking.
- Temporary road closures will occur during drainage and asphaltting works (only). Detours will be in place and local access to the school will be maintained.
- Public transport will continue to operate with detours in place as required.

What do we need to do?

Please share this information with staff, students, parents/guardians and visitors accordingly.

We also encourage everyone to follow traffic controllers and onsite signage, and to allow extra travel time.

Further information and contact details

This project is funded by the Federal Government's Roads to Recovery program. Visit their website for more information:

<https://investment.infrastructure.gov.au/about/local-initiatives/roads-recovery-program>

We have appointed TDM Earthworks Pty Ltd to undertake these works. They can be contacted with any urgent onsite queries:

Business hours

Chamantha Rajapaksa
Construction Manager
0419 518 291

After hours

Troy Maynes
Director
