

Year 8 Winter Break

On the 27th of July the year 8s took an excursion to Chadstone and Bounce inc. Chadstone is the second largest shopping centre in the southern hemisphere. We were given the experience of shopping with our friends going wherever we wanted, and then travelling to Bounce and jumping around on trampolines. I believe that having this freedom placed on us by our teachers was really important for us to experience responsibility. Additionally, not working hard in class gave us a chance to relax and unwind from the pressure of school. It was really great to hang out with our friends at fun places like Chadstone and Bounce in a different environment to school.

At Chadstone we all got to split up and explore with our friends. My friends and I explored a range of shops such as, Starbucks and Typo. This was by far one of the best excursions I have ever been to at school.

Bounce was another amazing experience. There were rock climbing walls and two ropes courses as well as countless trampolines and a dodgeball court.
