

COVER ART SAMPLE

The instructions below are for older children or children working with a teacher. With very young students just ensure they use texta, stay within the square and write their name close to their artwork, within the border on the bottom right (see sample).

Complete all your work within the square below | Make sure your artwork relates to the theme or title
Fill the entire square | Art work too close to the edge may be cropped (see crop marks) | Make your artwork colourful | Try not to use words because your title will be printed on your book | Use good quality **markers/textas only** (no crayons/pencils/pastels) | clearly print your name and class in the space provided

Clearly print your name on your artwork like and artist in the lower right hand corner not too close to the edge. The inside crop lines (lower right) are for your name, all other crop lines are for your artwork.

Name _____ Class _____

Yellow won't show up when scanned in black and white

Regardless of where the child draws their picture, Ensure child's name is close to art work and everything falls within the box

If the child's name is far away from the artwork there will be a large white gap when cropped.

~~Sample Name~~

Your full name should not be lower than this line.

Your full name should end about here. Using a ruler or a piece of paper helps.
