### Similar Schools

Similar Schools are a group of Victorian government schools with similar characteristics to the school.

This grouping of schools has been created by comparing each school's socio-economic background of students, the number of non-English speaking students and the school's size and location.

## NDP and NDA

'NDP' refers to no data being published for privacy reasons or where there are insufficient underlying data. For example, very low numbers of participants or characteristics that may lead to identification will result in an 'NDP' label.

'NDA' refers to no data being available. Some schools have no data for particular measures due to low enrolments. There may be no students enrolled in some year levels, so school comparisons are not possible.

Note that new schools only have the latest year of data and no comparative data from previous years. The department also recognises unique circumstances in Specialist, Select Entry, English Language, Community Schools and schools that changed school type recently, where school-to-school comparisons are not appropriate.

## The Victorian Curriculum

The Victorian Curriculum F–10 sets out what every student should learn during his or her first eleven years of schooling. The curriculum is the common set of knowledge and skills required by students for life-long learning, social development and active and informed citizenship.

The Victorian Curriculum is assessed through teacher judgements of student achievement based on classroom learning.

The curriculum has been developed to ensure that school subjects and their achievement standards enable continuous learning for all students, including students with disabilities.

The 'Towards Foundation Level Victorian Curriculum' is integrated directly into the curriculum and is referred to as 'Levels A to D'. 'Levels A to D' may be used for students with disabilities or students who may have additional learning needs. These levels are not associated with any set age or year level that links chronological age to cognitive progress (i.e., there is no age expected standard of achievement for 'Levels A to D').

## Updates to the 'Performance Summary' in the 2025 Annual Report

NAPLAN relative growth data has been included in the 2025 Performance Summary as there is sufficient data available for the comparison.

## PERFORMANCE SUMMARY

The Performance Summary for government schools provides an overview of how this school is contributing to the objectives of the Education State and how it compares to other Victorian government schools.

All schools work in partnership with their school community to improve outcomes for children and young people. Sharing this information with parents and the wider school community helps to support community engagement in student learning, a key priority of the Framework for Improving Student Outcomes 2.0 (FISO 2.0).

Refer to the 'How to read the Annual Report' section for help on how to interpret this report.

## SCHOOL PROFILE

### Enrolment Profile

A total of 1,285 students were enrolled at this school in 2025, 567 female and 712 male. 6% had English as an additional language and 2% were Aboriginal or Torres Strait Islander.

### Overall Socio-Economic Profile

The overall school's socio-economic profile is based on the school's Student Family Occupation and Education index (SFOE). SFOE is a measure of socio-educational disadvantage of a school, based on educational and employment characteristics of the parents/carers of students enrolled at the school. Possible SFOE band values are: Low, Low-Medium, Medium and High. A 'Low' band represents a low level of socio-educational disadvantage, a 'High' band represents a high level of socio-educational disadvantage. This school's SFOE band value is **Medium**.

### NAPLAN relative growth

The percentage of students in the High and Medium relative growth categories.

Relative growth is determined by comparing a student's current year result relative to the results of all 'similar' Victorian students (i.e., students in all sectors in the same year level who had the same score two years prior). If the current year result is in the top 25 percent, their gain level is categorised as 'High'; middle 50 percent is 'Medium'; bottom 25 percent is 'Low'.

A multi-year average for NAPLAN relative growth will be included in future years as data becomes available.
