Raising Resilient Teenagers:

A **NEW** Online Program for Parents

Researchers at Monash University and the University of Melbourne are pleased to offer parents of teenagers an evidence-based online parenting program, which has been shown to help improve parent-child communication and reduce family conflict. Through interactive online activities, parents can develop skills in emotional intelligence, supporting their teenager through difficulties they face, and maintaining a close relationship with their teen. The program is based on Parenting Guidelines that were published in partnership with beyondblue and have been accessed by thousands of parents internationally.

Parents will receive either:

- a personalised feedback report and interactive online modules, OR
- a set of five fact sheets about adolescent development and wellbeing.

You are eligible to participate if you:

- are a parent or guardian of a child aged 12 to 15
- live in Australia,
- · are fluent in English, and
- have Internet access.

Participation will take a few hours of yours and your child's time over 12 months. Both you and your child will be reimbursed for your time.

To sign up for a FREE trial of this program, please visit: www.partnersinparenting.net.au
