

# Foundation!

## Literacy & Numeracy Update

Students are participating in a unit called 'Taking Care of our Earth'. They have learnt about how to 'Reduce, Reuse and Recycle'. They have also been exploring procedural texts and using them to teach others about how to compost and make plants from food scraps.

In Numeracy, students have been creating subtraction stories and displaying their thinking using drawings, concrete materials and number bonds.

## Shared Writing

Students have had opportunities to write collaboratively this week. This involves planning a sentence and supporting each other to write it on a sentence strip. We then bring these sentences to create a shared text.

## Thank you!

We would like to take this opportunity to thank all families for their support and contributions to Foundation classrooms this year. We are extremely proud of this cohort and grateful to have taught them in their first year of school. We hope you have a safe and happy holiday break!
