

SERBIA!

FACTS AND MUCH MORE!

This is a picture of Belgrade in Serbia.

DID YOU KNOW?

Did you know that before the 1999 war the name for Serbia was Yugoslavia!

Introduction

Serbia is a small country in Europe. It is only 452.76 km vertically. Serbia has many celebrations such as, Easter Slava and more. Now I will be informing you on Serbia.

Serbian Easter-

Easter is a celebration spent with family. Before the sun rises red eggs have to be coloured, because the red signifies the blood of Christ. On Easter day families crack eggs with each other, and go to church at midnight. At church we have a candle and walk around the building 3 times.

Location-

Serbia is a small country in Europe. The capital city of Serbia is Belgrade, and the population is 8 million 7 hundred and 37 thousand. Australia is 8 hours in front of Serbia, but when it is summer in Australia, Australia is 10 hours in front because of day light savings.

Serbian flag-

There are 3 colours on the Serbian flag, red, blue and white. The red signifies blood, blue signifies sky and white signifies light. On the flag there is a white double-headed eagle with a red shield in front. On the shield there are 4 Cyrillic "C's" in each corner which means, Samo Sloga Serbina Spasava (only unity will save the Serbs.)

This is the Serbian flag.

Serbian alphabet-

The serbian alphabet has 30 letters, 5 vowels and 25 consonants. The Serbian alphabet is called Cyrillic. Most Serbian people have lastnames ending in "ic" (i-ch).

The Serbian alphabet was created by Vuk Karadžić in the 9th century which was the year 860!

Conclusion-

Even though Serbia is tiny, it is a very delightful and appealing country to visit.

I would recommend to visit Serbia with your family.
