

House Captains Weekly

Breaking News!!! This is Carys, Maddi, Jai, Flynne, and Vivienne reporting also commonly referred to the House Captains on House Captain weekly. House Captains go down to classes to learn about what the students are doing and which values they are showing.

On Wednesday the 12th of May a few House Captains went to FL to see how they were using the I-Pads for the first time, and which values they were showing. The foundations were showing Persistence when the I-pads were not working and were also show confidence when they were using the I-Pads. Not only were they showing heaps of creativity, but also playing their game overall it was a great time and the Foundations showed lots of values.

We then went to go see FS doing a buddy activity with their buddy class 4F. They were colouring in walk to school posters and making cards. They were using great school values such as respect when working together and even though it's not a school value they were showing great creativity. Keep up the amazing work Foundation and applying our IPS values!!
