

OZTECH INTELLIGENT SYSTEMS PTY LTD

INTERNSHIP PROGRAM

Oztech Intelligent Systems has employed many apprentices over its 30 year history. A recent decision has been made to revamp the internship program offered to apprentices looking for a career in the BMS industry. Now is a great time to join the Oztech team for a 4 year internship and learn all there is to know about HVAC and BMS.

WHO IS OZTECH INTELLIGENT SYSTEMS PTY LTD

Oztech was founded in the early 1980's in response to the need for an affordable and reliable option for intelligent building management systems. Since its inception, Oztech has developed a reputation for providing highly reliable systems that deliver first class results.

We provide an enjoyable workplace for our staff and provide opportunities for long fulfilling careers. Our Managing Director started with Oztech as an apprentice and we have many other long servicing staff members.

Oztech is based in the Lane Cove business park and presently operates in Sydney, Melbourne, Canberra and the Gold Coast.

WHAT DOES OZTECH INTELLIGENT SYSTEMS PTY LTD DO

Oztech provides BMS (Building Management Services) solutions for a diverse range of facilities from multi storey commercial buildings to data centres and shopping centres. We provide our clients with the expertise and flexibility to provide controls and building management solutions to meet the needs of all stakeholders.

We design, program, install and maintain systems and components to control building air conditioning and lighting to ensure tenant comfort and minimise energy consumption.

WHAT DOES OZTECH INTELLIGENT SYSTEMS PTY LTD OFFER AN INTERN

Oztech is offering an internship that will provide exposure to all facets of the building management solutions we offer to our clients including;

- On-site installation of all BMS hardware
- Scheduled maintenance of all BMS hardware
- Estimating/quoting potential works
- Service desk which involves trouble shooting and problem for sites experience problems
- Project engineering
- Panel building

You will be required to complete a TAFE qualification in either Electrical, Instrumentation, Electro Engineering or some combination. Oztech will cover all costs associated with your TAFE requirements and provide you with a paid day to attend TAFE each week.

You will be provided with all the tools and PP&E required to fulfil your day to day responsibilities and transport between jobs will either be provided or reimbursed.

WHAT DOES OZTECH INTELLIGENT SYSTEMS EXPECT IN RETURN

Oztech is seeking reliable, hard working candidates who are keen to learn all they can about the BMS industry and commit to a 4 year internship. You are not required to have any experience or knowledge of the industry prior to commencement – we will teach you.

If you want to be an electrician, please do not apply. While there is an element of electrical work, we are not an electrical company and will not be able to meet your expectations if this is what you are seeking. We offer a great mix of electrical and instrumentation exposure.

HOW TO APPLY

If you realise what a fantastic opportunity this is and wish to apply or find out more, please contact Daniel Ashford on 9816 7000 or accounts@oztech.com.au
