TTC Named a 2023 Supply Chain to Admire

Now in its tenth year, the **Supply Chains to Admire** methodology is a data-driven evaluation of improvement, performance, and value on reported company financials. TTC was one of 32 companies from over 500 companies evaluated. **Congratulations to the TTC integrated supply chain team on this honor!**

Milestone Service Anniversaries

Congrats to Angie Hagen, lead, administrative services at Bloomington on 25 years of service! See who else is celebrating a milestone anniversary.

Women Leaders Share Perspectives

Over 200 TTC employees joined the conversation with women leaders in the ISC organization last week. Thank you to panelists, **Karen Stevens, director, sourcing**; **Nayeli Plata, senior manager IBP global supply & material flow; Vida Butler, senior managing director, manufacturing operations**; and **Lori Schlueter, director, operations, Windom,** who shared their career journeys, experiences, opportunities and challenges. This program was co-sponsored with TTC WIN, our Women's ERG.

Successful SandPro Pilot Build at Windom

A cross-functional team from Bloomington, Tomah and Windom, and various other roles from ISC and commercial worked together over the last year to scope a successful transfe project. The team's efforts allow TTC to optimize network capacity across the enterprise. **Thank you** to everyone who worked together to make this program successful. Congrate the project team - the combined efforts prove that in working together, **We Are One!**

2024 TTC Tech Forum Coming May 6-9

Connect, Collaborate & Inspire

Planning is underway for the 2024 TTC Tech Forum. This event will spark discussions, provide an internal learning experience, and increase social/interpersonal connections across the TTC technology community. In-person and virtual options will be available.

Interested in attending? Complete the $\underline{\textbf{EARLY INTEREST FORM}}$ by $\underline{\textbf{February 9}}.$

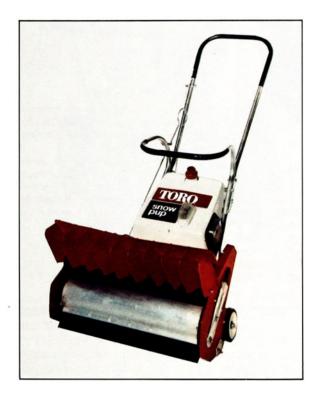

Throwback Thursday

When TTC built the **Snow Pup**® their goal was to produce a machine to replace the snow shovel—small and light enough for almost anyone to handle, yet rugged enough to stand up to our high engineering standards. Check out this 1974 ad - 50 years ago- showing the most versatile snow thrower on the the market.

The Toro Snow Pup: the multi-purpose snowthrower

Cleans your steps, unburies your car, clears your driveway and cleans your sidewalk...yet it's compact enough to hang on your garage wall.

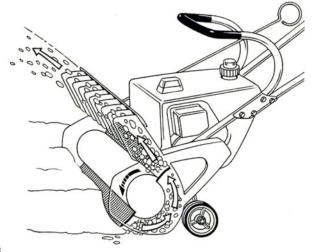

When Toro built the Snow Pup® their goal was to produce a machine to replace the snow shovel—small and light enough for almost anyone to handle, yet rugged enough to stand up to the high engineering standards that Toro sets. The Toro engineers' first step was to make the machine of aluminum and high-impact plastic. Both are lightweight, virtually nonbreakable, and rust- and corrosion-free.

The smaller of Toro's two models, the 14-inch Snow Pup, weighs only 23 pounds. It can clean porches quickly and steps in one swipe. For drifts at the end of paths and drives, just pick up the Pup to remove the top layer. Then get to the bottom on the next cuts.

To appreciate the kind of big snow job the Snow Pup can handle, all you have to do is see it in action. The 21-inch Pup can throw 300 pounds of snow a minute. That means in only 15 minutes, it can clear 4 inches of snow from a 50-foot driveway.

In heavy-snow areas you can use the Snow Pup for steps and walks, as an addition to the big two-stage snowthrowers. In medium-snow areas, depending on the area you have to clear, the Snow Pup might be all you'll need. For light snow, the Pup is ideal. If your health and age make shoveling dangerous, it could be indispensable.

The Snow Pup is probably the most versatile snowthrower on the market. To find out exactly how it works, see the section below.

How the Snow Pup works:

Follow the schematic drawing on the left to see how the Snow Pup actually handles snow. Its cleaning action is largely due to the tough four-ply rubber paddles and the aluminum drum that spins at 1000 RPM. As the drum revolves, the snow is picked up by the paddles. The paddles are curved so that when they come in contact with the ground, they clean it with a squeegee-like action. They also help pull the Pup forward through the snow. You hardly have to push.

As the drum continues to revolve, the snow is thrown up and *through* the directional vanes. These vanes—made of plastic because it repels snow—won't clog up, no matter how wet the snowfall. The metal rod that goes from the vanes toward the handlebar is the directional control. By turning it, you can change the throwing direction of the vanes to the right, the left or straight forward.

The Snow Pup is the ideal machine for jobs like clearing steps and porches or digging out your car. Yet it has enough power to tackle bigger jobs like driveways. In fact even in medium-snow areas, depending on how much land you have to clear, the Snow Pup may be all the snowthrower you need.
