

TARNEIT
P-9 COLLEGE

Dear Parents and Carers,

Our Year 7-9 students have started the 2019 school year in an extremely positive fashion. Our new Year 7 students in particular have transitioned to secondary schooling very efficiently and have been hard at work. They have adapted well to their new teachers and the demands of secondary school.

Our Year 8 students have been also been working to consolidate their knowledge and skills from their first year of secondary school and have enjoyed their new responsibilities so far.

Our Year 9 students are acclimatising to being the leaders of the College and a large number went through the arduous process of nominating and interviewing for the roles of College Captains. This week, along with the Year 4 and 6 students, nominations and interviews for house captaincy place were announced at year level assemblies.

2019 has already produced some exciting results in sport. Our Year 8 girl's volleyball team won the district round of competition and will now go on to play in the regional competition later in the term.

It has been a very exciting beginning to 2019 and I look forward to all the events in the next few weeks.

Kind Regards,

Congratulations to our House Captains!

John Eskander
