

Transition Tatura’s Environmental Short-Film Competition 2020

Information, Terms & Conditions, Entry Form

This competition is open to all current students within the Goulburn Valley.

Either by yourself, with your family or with friends, make a short film (1 to 6 minutes) addressing the following topic;

“Although it has been a terrible crisis, what have been the benefits to the environment, the community and your family of Covid-19 and isolation? And what could we all do to keep these good things going when life gets back to normal?”

Here are some examples of the good things that people have told us recently;

- spending more quality time with your family
- improving the garden and growing more veggies in the backyard
- home maintenance and improvements
- learning new skills (webinars, DIY books...), starting a new hobby, self-improvement
- more exercise
- buying and supporting local business + being more aware of “Australian Made” / food miles
- reduced freight needed due to more use of local production
- what services we have in town (and don’t have)
- greater awareness and support of local community
- discovering your town while walking your dog (for exercise!)
- boardgames with the family
- backyard camping
- saving petrol and car costs
- slowing-down lifestyle and shorter work/schooling weeks
