Dear Parents and Carers,

Within the St Pius X community there are students who consistently display exemplary dedication and academic talent. To challenge and recognise these students, we are inviting them to showcase and celebrate their talents in the world-renowned ICAS competition.

ICAS is an online academic competition that gives students in Years 5 – 10 the opportunity to challenge their higher order thinking and problem-solving skills in **Writing, English, Mathematics and Science**.

ICAS results are in-depth and meaningful, and ICAS evaluates student performance against other competition entrants across the state and nation. The data reveals student strengths and weaknesses and can help you recognise and support your child's academic journey.

If you wish for your child to participate in ICAS this year, please go to the Parent Portal to register for your chosen subjects. This selection and payment will be considered as permission for your son to participate in the tests on the dates and times below:
