

Dear Parents and Carers,

It is with great excitement that I share with you the launch of an innovative digital careers program that our students now have access to; The Careers Department ([www.thecareersdepartment.com](http://www.thecareersdepartment.com))

We have invested in the product this year as we strive to inspire and empower our students to make informed career decisions. The message is clear: *"if you can see it, you can be it"* and this product showcases 800+ pieces of industry and course content that can show your child all of the options on offer to them post high school.

The digital program is a touchpoint for our students to not only experience different industries, but to see these industries in action and to learn from their professionals.
