

# Flames

By Madeline

Once there was a dragon, who was only little she had a Rose red body with yellow  
sunshine Spots

One day a Dragon leapt into the sun. The Dragon was named Madeline and she would leap  
into the sun every morning to get her flames powered up. But this morning when she went  
into the Sun she heard Voices teasing her. It was coming from animals like monkeys,  
Giraffes, lions and tigers it was horrible she didn't like it. They were saying things like, "she's  
weird" "and she's ugly". "What a show off"

The next morning she leapt  
Into the sun Again she couldn't hear anyone teasing her Until she saw the lions But she said  
call me a rude dude and I'll stay cool. The mind master had said this to Her. She scared the  
lions off.

Next she saw the Tigers call me a rude dude and stay cool. The dragon scared them away too.

Next she saw the monkeys call me a rude dude and I'll stay cool. She scared those monkeys away.

Last she saw a Giraffe she said to The giraffe call me a rude dude and I'll stay cool. she scared the giraffe off.

Madeline the dragon was feeling proud that she scared the bullies off and had a happy ending because she listened to the Mind Master and didn't let the Head Hassler get in her way.
