

## AMI VRQA REVIEW: 1-5 August 2022

Every school is required to undergo a four yearly VRQA Review which looks at compliance in a number of areas and also gauges how the school is progressing in the following five areas:

1. Religious Dimension
2. Learning and Teaching
3. Student Wellbeing
4. Leadership and Management
5. Community

Academy Review took place 1-5 August, with two reviewers onsite who toured the school, checked compliance, and focussed on documentation pertaining to the five areas above. In ascertaining the school's performance in the above five areas, significant documentation was looked at and interviews took place with the Leadership Team, staff, students, parents and Advisory Council members.

It was extremely pleasing to hear the reviewers' positive report on the five areas above and also to know that we had achieved full compliance in the areas below, including the 11 new Child Safe Standards which only came into effect on 1 July 2022.
