MEET YOUR ONLINE PARENT NIGHT PRESENTERS

SEE YOU SOON,
BLAKE & DAVE

Dave and Blake are the Co-Founders of “My Life Online,” a global education company that teaches kids to be safe, smart and kind online. The program was developed as a positive, uplifting way to greet kids at the front door of the internet and give them a positive start to social media. It has grown into a program that works with students, educators and parents both in school and online. Before this, Dave and Blake traveled around to elementary schools in North America delivering a 2-man show called Acoustic Opera, which empowered kids to embrace their differences and appreciate one another.

Blake and Dave grow and coach their team of “My Life Online” facilitators, who go into elementary schools and deliver the presentation around the world. The guys also develop video-based classroom curriculum as a way to work with teachers and students from afar and to extend the message beyond just 1 presentation. Parents can tune into their “My Life Online for Parents” live webinar series from the comfort of their own home, as a way to help them help their kids live a positive life online. Their work has been featured on CTV, Breakfast Television, and The National News.
