¿Cómo te llamas?
¿Cuántos años tienes?

When? Fridays
What time? at 4.30 pm

Why is it important for children to learn 2 languages?

Learning a second language boosts problem-solving, critical-thinking, and listening skills, in addition to improving memory, concentration, and the ability to multitask. Learning a second language opens the opportunity for being part of a community with a different culture and learning more about the world around us.

- 45 g orange jelly crystals
- 1 L boiling water
- 1 L cold water

Using a permanent marker, draw jack-o'-lantern faces onto each mason jar. Cut peaches into slices and dice the mangoes into cubes. Pour orange jelly crystals into a large bowl, then mix with 1 litre of boiling water. Stir until the crystals have dissolved completely, then add 1 litre of cold water. Stir the liquid for 5 minutes and then place into a pouring jug. Divide diced fruit equally among mason jars, and then fill each jar with the orange jelly liquid.
