[Pathways into Medicine and Dentistry Live Webinar](#)

6 May

Students, Parents, and Teachers are welcome!

Are you currently studying in years 9, 10, 11 or 12?

Are you considering a career in medicine or dentistry?

If you have answered yes, then you may need to sit a compulsory entry exam known as UCAT (Undergraduate Medicine and Health Sciences Admission Test) before you can apply to certain universities!

The National Institute of Education (NIE) is proud to present the free information seminar all about UCAT and the undergraduate pathways into medicine, dentistry, and some other health science programs. The session is PACKED with loads of valuable information during which we will be covering the following topics and more.

[Simulated UCAT Day Workshop: 2-part program](#)

5 April

The Simulated UCAT Day (SUD) 2-Part workshop conducted over a full day and a follow-up session.

If you are in Yrs. 10, 11, 12, or you may be older and considering sitting the UCAT in the future, then this program is for you. The Simulated UCAT Workshop program is ideal and often a necessary step towards effective and efficient preparation for the UCAT.

The workshop is primarily designed to cover fundamental techniques in navigating all five sections of the UCAT test and also for participants to gain a better understanding of their own level of preparedness for the test. Over the course of the years, the program has evolved into a more comprehensive and holistic exercise, which not only achieves its primary goal, but it is also exposing students to a wealth of knowledge about all other aspects of the journey into a medical degree. The latest update has seen the program grow into a 2-Day event as the sheer amount of content covered was too great to fit into a 1-day program.

[National Institute of Education – Medical Interview Preparation Workshops](#)

12 – 13 April

The unique NIE workshop program aims for students to gain an in-depth understanding and required knowledge of the medical interview processes for specific universities, including Multi-station Mini Interview (MMI), Structured, and Semi-structured panel interviews. The workshop is structured and based on the models that are taught during our proven one-on-one personalised medical interview sessions. The workshop will allow each and every attendee to learn the required skills and practical understanding for the university from which they received an interview offer from.
