

What an incredible first term our Prep students have had!

We have been busy practising our classroom routines; so many skills that are helpful in our day to day lives such as unpacking our bags, taking care of all property and moving safely throughout the classroom & school!

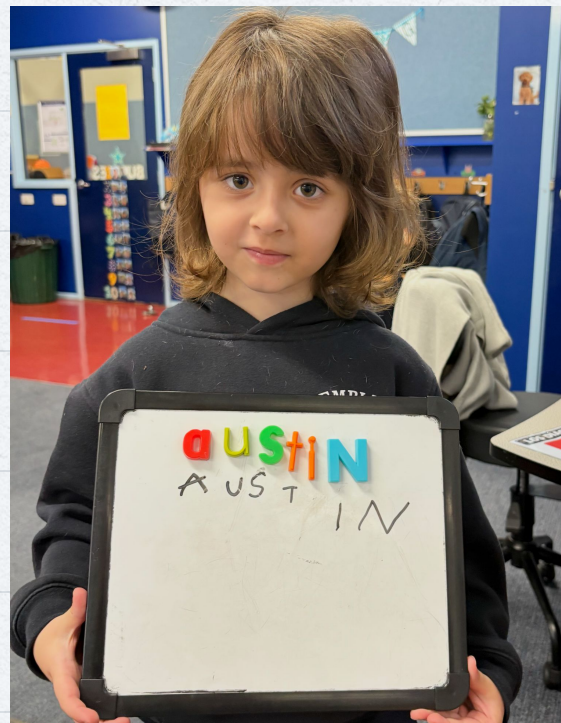

# WRITING

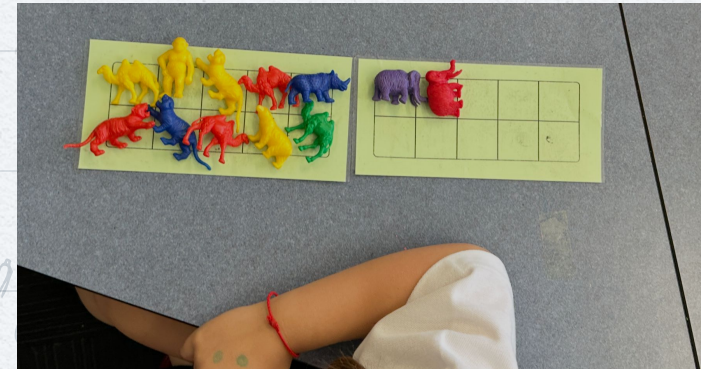

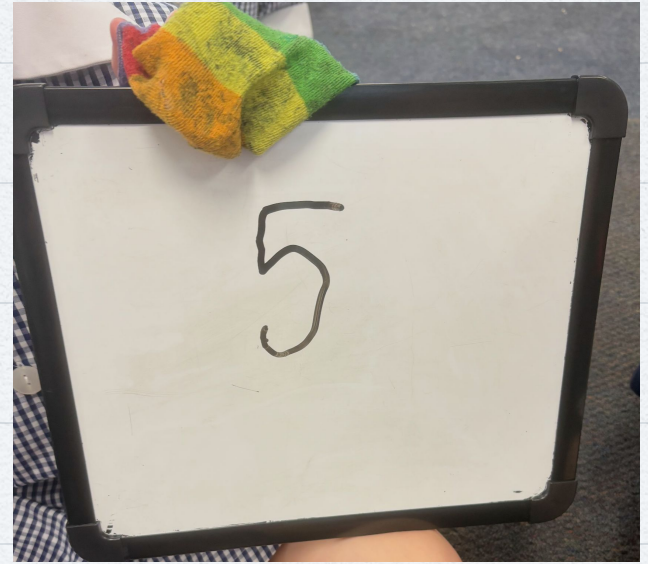

Students have practised forming letters, writing their names and creating a range of *special sentences* in their Special Writing Books. Each week, students engaged in

language experiences to make connections and draw meaning between their writing and their lives.

# MATHS

Can you believe we have already done **38 days of Prep**?! This term we have practised our counting skills each day, tallying the days we have been at school. We've learnt about using tens frames to count efficiently, practised different counting strategies and accurately writing the numerals to 20!

# SPECIAL EVENTS & CONCEPT

This term's Concept has been all about understanding who is in our family. We used Harmony week to understand, accept and celebrate differences. We've also worked with our buddies to craft, colour, draw and play to learn more about each

It's been an incredible start to Prep for all students, making new friends, learning new things, adapting to wet-weather playtimes and having tons of fun. We look forward to another great term in Term 2!
