## MUKINBUDIN P&C 2021 GRAIN PLEDGE

### Dear Mukinbudin Community Members,

Last year we wrote to you explaining the reasons why the P&C have made the decision to no longer plant a P&C crop as a fundraising activity. We asked you to instead consider pledging grain and transferring 1tonne/child to the P&C. We raised \$9,809.00 from your generosity - thank you!

In 2021 the P&C made donations and purchases of resources to the Mukinbudin District High School exceeding \$13,000.00. Again we are asking all growers that you consider assisting the P&C with its fundraising activities by pledging 1t of grain for each of your children that attend Mukinbudin District High School from your 2021 cropping program or would be really appreciative of any donation you may wish to make to support the school.

### CROPPING PLEDGE – TRANSFER TO P&C: GROWER NUMBER 58890195

Your donation would bring us much closer to raising the funds we need annually to ensure that the P&C can assist the MDHS to provide the resources, facilities and amenities needed enable the best learning environment, resources and activities are available to the children of Mukinbudin! We are happy to acknowledge this donation (unless you prefer otherwise!). We would like to thank you for considering this opportunity to support the Mukinbudin P&C in raising much needed funds. We also welcome your feedback about the cropping pledge alternative to gauge if it is a better strategy than putting in a crop.

### ALTERNATIVE FUNDRAISING

If the above is not for you, please consider supporting the **Container Deposit Scheme P&C Donation Point** that we have set up in Mukinbudin. We are also facilitating **drumMuster** as a fundraising initiative and to support recycling and have set up arrangements whereby you can drop off your eligible Agvet and chemical containers at any time. If you have any questions or queries, please feel free to contact any of the P&C Committee below.

Thank you in advance for your support of the Mukinbudin P&C.
