

29 September 2023

Dear Parents and Caregivers,

As part of our continuous commitment to developing your child in a safe, respectful and inclusive learning environment, it is important that we consider the ever-changing world we live in. During Term 4 we will provide our community (staff, parents/caregivers and students) with formal opportunities to participate in the important aspect around whole College inclusion.

Endeavour College seeks to educate academically, spiritually, physically, socially, morally and emotionally by guiding young people to discover their God-given gifts and abilities, and to equip them with the necessary skills to be capable and well-adjusted contributors to society. Through encouragement, students are encouraged to pursue their passions and achieve excellent outcomes by staff who are highly skilled in adapting contemporary teaching styles to support the needs of each student.

It is evident at Endeavour College that students and staff feel loved, supported and that they belong. The whole community lives its values, sustaining a culture of positivity and aspiration with students and staff challenged and inspired to achieve their best.

Through several forums such as Culture and Wellbeing, the Reconciliation Action Plan (RAP), the proposed Multicultural Inclusion Plan (MIP), student leadership and pastoral care, Endeavour College has consistently promoted inclusion and student voice. Whilst it is reassuring to know that we are on the forefront of raising the profile of inclusion, research indicates that there are always opportunities to seek feedback on key topics more broadly such as:

- Artificial Intelligence (AI)
- Student safety and welfare
- Disability accessibility
- Individual learning plans
- Racism
- Gender and sexual diversity

Following analysis of the feedback received, we will look to implement strategies as we strive for continuous improvement.

Your sincerely,

Mr Richard Baird
Principal

Yours sincerely,

Ms Leanne Ridsdale
Chairperson
