

Clothed Swim

Thursday 25th November

As part of your child's **Swimming & Water Safety program** and the Victorian Department of Education and Training's primary school curriculum, students are required to practice simulated open water and water safety activities, incorporating personal survival skills.

These activities involve students swimming in clothing during the scheduled program.

Students are required to swim in their bathers and clothes.

Short sleeved top and Shorts are preferred.

No onesies please.

Please ensure your child comes to swimming lessons with their **bathers on and their clothes in a plastic bag** ready for the activities.

The plastic bag is needed to take their wet clothes home again.
