

Pentridge Blvd / Urquhart Street Intersection Upgrade Works

08 June 2020

On behalf of Moreland City Council, Kaizen Civil Pty Ltd will be installing pedestrian signals and general upgrades at the intersection of Pentridge Boulevard and Urquhart Street, Coburg

Scope

Works include excavation/demolition of existing road pavements and kerbs, installation of conduits, installation of signals and signals infrastructure, installation of kerbs and traffic islands, installation of footpaths installation of asphalt and line marking.

Project Timing

The work is planned to commence on week commencing 22 June 2020, with completion expected end of July 2020 weather and ground conditions permitting. Works will be carried out during both Night and Day shifts (depending on the stage of the project). Night Shift will generally operate from 8:00 PM to 5:00 AM, Day Shift from 7:00 AM to 5:30 PM. Due to the nature of the construction industry, there will be periods when there will be no construction staff on site. During these periods the site will be maintained in a safe state.

Traffic Flow

DAYTIME: Pentridge Blvd and Urquhart St will be reduced to single lane in both their directions. This includes turning lanes and turns will need to be made from the running lane.

NIGHTTIME: Pentridge Blvd will be closed between Stockade Ave and Bell Street. Urquhart Street will be closed from Wardens Walk to the High School. Provision will be made to allow any local traffic and parked cars to exit site.

Parking

Sections of parking along Urquhart Street near its intersection with Pentridge Blvd will be closed at certain stages of the project.

Your cooperation is appreciated.
