Term 4, Week 1, 2021

Welcome back to Term 4!

Over the school holiday period, the children engaged in many fun activities and themes. Some of these activities included: mug decorating, under the sea, soccer and football skills, photography and picture frame design, pizza party and the most popular activity was the make a bear incursion. During the incursion, the children were able to stuff their teddy bears, create a birth certificate for them and even design small t-shirts. The children really loved this activity and hope to do it again in future holiday programs.

Some of the upcoming themes that we will be doing during Term 4 include: Spring and Summer, exploring different countries like England, learning about our 5 senses, Halloween and Christmas. We will also be continuing to get the children involved with planning and picking their favourite things to do whilst at the program.

We are looking forward to seeing everyone return back to school and Kelly Club.

Reminder:

Please let us know if you require bookings for your children for when they return in the next few weeks, as Kelly Club may not operate if there are no children booked in. Also, for the next few weeks we will be located in the Art room (V2).
