Statements from Candidate – KIRK EVERETT

My name is kirk, i am 38 years old, my daughter has started at GSSC this year in year 7.

I have previously worked in management roles in my previous places of employment, across different fields including hospitality, retail and finance. Currently however studying to re-skill myself in the area of Education Support.

I am currently on the school council at Mooroopna Primary School, where my daughter previously attended and where my two boys currently still go and have just been re-elected there this year to remain on the school council, for another two year term following on from my previous two year term. I'm on the building and grounds sub committee as well as fundraising there to.

I'm trying to have an additional school crossing added at MPS which has been tabled and raised with Shepparton Council last year and we are still awaiting the outcome.

I have also just been elected to the Mooroopna Football Club Junior committee. Where my son plays at a junior level, I also help out at training.

Personally, I want to be on the school council at GSSC to help make a difference and change and guide the mindsets of all to help with the acceptance of this new school into the community.

I want to help shape and contribute to the school however possible to achieve this.

Whilst saddened of the closure of our 4 secondary schools like majority of the community, GSSC is a new dawn, filled with opportunity that needs to be given its best chance to succeed and I want to do this and see it evolve through making a difference on school council.

My interests are footy, and, spending time with children and family, holidaying on the Gold Coast with my children and good long on drives.

Regards

Kirk Everett
