

# Katherine Gayton

---

Hi everyone,

I'm Katherine, the new assessment psychologist at BRP. It's been so lovely getting to meet a few of you and I hope to meet you all soon in person. This is a brief introduction to let you know the work I do at Bluff Road Psychology.

I assess for Intellectual Disability, Specific Learning Disorders (Dyslexia, Dyscalculia and Dysgraphia), ADHD and I have screeners that can highlight the likelihood of Autism and other mental health disorders. Unfortunately I do not comprehensively assess or diagnose Autism just yet. I predominantly work with children and adolescents (but can assess adults with a cognitive assessment and Vineland only if needed, not ADHD).

The psychological assessments I love to work with are the following:

- Cognitive assessments (WPPSI-IV, WISC-V, WAIS-IV)
- Educational assessment (WIAT-III)
- Adaptive Functioning (Vineland-3)
- Overall mental health disorders screener (BASC3)
- Autism screener (SRS-2)
- ADHD (Connors 4), and
- Executive functioning (Brief 2)

I welcome a chat about any potential referrals you may have. Please feel free to send me an email.
