

Religion: Task 2. How is Creation a gift from God to all people?

God gives us too much to love including our life and no toy or a brand new house can ever compare to what god has given us , he was the one that placed spirit in our world which creates happiness and kindness to all so the only thing we can give back is for us to take care of our world and our life and to never stop believing in ourselves because if you look around you can see so many things of creation like roses for love and trees for life and grass for our leading path and new life.

Love
