

PORT MELBOURNE TEAMKIDS NEWSLETTER

WHAT'S BEEN HAPPENING

In Week 7, the children celebrated World Environment Day with some thoughtful activities that brought them closer to the land on which we learn and play. They tested their knowledge of environmental facts with a *True or False* Pop Quiz, created posters promoting sustainability, and water colour landscapes celebrating nature. They also made flowers and bumble bees out of pipe cleaners in a cute craft idea that recognises the importance of these little critters for our food supply! In Gardening Club on Wednesday, the children continued to nurture and tend to the flower beds and veggie patches that grace PMPS' school grounds, instilling in them a sense of responsibility and oneness with nature.

We have also continued our 100 Hours of Outdoors Challenge with activities such as Soccer: Penalty Shots, Footy, and Jump Rope, promoting the children's gross motor skills and dexterity, while getting some fresh air in the cooler months! Be sure to pack your children's jumpers so they can keep warm while keeping active!

With the Winter School Holidays just three weeks away, bookings are now open for our Vacation Care Program in July! As always, we encourage you to book early to secure a spot for your child, so check out our recently released program and book accordingly ☺
