

Catwalk Dance

Equinox Dance + Film
presents

Catwalk Dance is a unique confidence-building class created by Samantha Johnston, combining decades of experience in dance, modelling, choreography and youth development.

Throughout her career she has choreographed numerous fashion parades and runway events, and has witnessed firsthand the positive impact catwalk training can have on young people.

Catwalk Dance combines runway walking, posture, presentation skills, musicality, movement and fun choreography designed specifically for the catwalk.

Students learn to walk with confidence, move to the beat of the music, develop strong posture and express themselves in a supportive and encouraging environment.

More than a modelling class, Catwalk Dance is about self-expression, confidence, presence and learning to feel comfortable in your own skin. Students will have opportunities to work towards performances, runway presentations and creative film projects as the program develops.
