

MIDDLE SCHOOL NEWSLETTER

LITERACY & NUMERACY

In Content Knowledge students have begun their new unit 'Classification of animals'. Students have enjoyed learning about a variety of vertebrates and invertebrates.

In Text Construction students have been learning how to write topic sentences. These sentences introduce a paragraph. They also completed a narrative writing piece titled 'Through the door'.

In Numeracy students recently completed a post test about estimating and measuring length, area and perimeter. Pleasing learning growth was demonstrated throughout the Middle School.

SKILL IN FOCUS:

Middle School students are focussing on building resilience. Resilient children can recover from setbacks and get back to daily routines. Resilience develops when children experience challenges and learn to deal with them positively. This skill is particularly important given our upcoming Middle School Camp in Term 4.

UPCOMING LEARNING

Content Knowledge: Classification of animals

Text Construction: Topic sentences

Numeracy: Angles

Personal Learning: Building resilience

Reminders

Please ensure your child returns the **2024 Wyuna Camp expression of interest form** to their classroom teacher by the end of the week.
