

TARNEIT  
P-9 COLLEGE

# At Tarneit P-9 College, we aim to 'Teach Above the Line.'

Research | Writing | Digital Citizenship

The **SAMR** Model is a framework created by Dr. Ruben Puentedura and is made up of four steps - **S**ubstitution, **A**ugmentation, **M**odification, and **R**edefinition. Substitution and Augmentation are considered '*Enhancement*' steps, while Modification and Redefinition are termed '*Transformation*' steps.

To hear from Dr. Ruben Puentedura on how the model impacts student achievement, and how schools can use **SAMR** as a 'common language' to design meaningful learning experiences with technology, click on the link below or type this into your internet browser to see the video:
