Biotechnology at Holmesglen Institute

Are you interested in the health sciences? Holmesglen Institute offers a range of courses in the health sciences. Classes are small with around 20 students in each, and the fully equipped laboratories give the students plenty of hands on experience, so that they are workplace ready. The [Certificate IV in Laboratory Techniques](#) and [Diploma in Laboratory Technology](#) courses give graduates the qualifications to work in various roles in laboratories from technicians to research assistants. As part of the Certificate IV, students are required to undertake a two week placement and Diploma students can undertake month long internships.

Recent graduates of the Diploma and Certificate have found moved onto:

- Melbourne Pathology (Histology Testing)
- Laboratory Technician at Peter McCallum Cancer Centre
- Bachelor of Biotechnology (Monash University)
- Bachelor of Nursing (Holmesglen)

For more information email biotechnology@holmesglen.edu.au, call (03) 9209 5548 or visit [Pathology and Laboratory Testing Courses](#), or browse [Community & Health Sciences](#) courses on offer at Holmesglen Institute.

Technical Trades in the Defence Force

The Navy, Army and Air Force need highly trained technicians and tradespeople to ensure that every piece of equipment, from ships, jets and tanks, through to missile systems and telecommunications networks, are maintained in peak condition. The Defence Force will train you to be these people. The facilities are excellent and offer the best trade qualifications possible, that are nationally recognised and highly sought after in the civilian world. The wages are great during training – with subsidised meals and accommodation – plus there is the bonus of having a guaranteed job when the apprenticeship is finished.

➤ **New Politics, Philosophy & Economics (PPE) Course**

"Effecting change in the social world involves negotiating complex issues that generate equally complex ethical dilemmas. The interdisciplinary study of Politics, Philosophy and Economics equips graduates with essential skills to address contemporary problems in holistic, creative and effective ways." - Dr Ben Wellings.

This elite degree is designed for deep thinkers who want to have a real impact on shaping our society. Students will study the inter-relationship between politics, philosophy and economics. Core study requirements will develop their ability to think critically about analysis, strategy and leadership and they will learn how to transform big ideas into tangible results. A study score of 25 in English or 30 in EAL, and 25 in Maths Methods or Specialist Maths are prerequisites. An indicative ATAR of 90 is expected, plus students may be invited for an interview.

What is Land Surveying?

Interested in Geography, Maths, Science, IT and/or the outdoors? Looking for a job that won't tie you to a desk? Surveying is the measurement and mapping of our surrounding environment using mathematics and specialised technology. Land surveyors are involved with a diverse variety of projects from land subdivision to tunnel building and major construction.

Importantly though, **there is much more to surveying than taking measurements outdoors and then analysing them back in the office.** Surveyors are often the first people on site during any construction process; they are the guardians of property law, and the creators of land titles. They are also the ones who can sign off on the position of new title boundaries. In all, surveyors are an integral part of the process in a wide variety of scenarios.

Students who wish to find out what surveying is, what surveyors do, where to study, and what it takes, might like to browse [A Life Without Limits](#)

Visual Merchandising at RMIT

RMIT is globally recognised as a leader in visual and fashion merchandising education, you'll make strong industry connections and graduate with excellent international employment opportunities.

Visual Merchandising looks at combining product, environment, and space into a stimulating and engaging display to encourage the sale of a product or service. It has become an important element in retail, exhibitions, theatre, events, and photography. Fashion merchandisers make global fashion local with careers in buying, product development, fashion marketing and retail management.

Many elements can be used by visual merchandisers in creating displays, including colour, lighting, space, product information, sensory inputs such as smell, touch, and sound as well as technologies such as digital displays and interactive installations.

At RMIT, students will blend their creativity with business; they will generate a folio of work to prepare them for a career as a visual merchandiser in retail, events, exhibition, and styling.

Visit [Visual Merchandising at RMIT](#) to find out more about the various courses on offer.

Nutritionists and Dietitians

According to the Dietitian Association of Australia (DAA) - [Dietitian Association of Australia \(DAA\)](#), there is a distinction made between dietitians and other occupations in the nutrition and food science field, including that of nutritionist. The key difference between a dietitian and a nutritionist is that, in addition to or as part of their qualification in human nutrition, a dietitian has undertaken a course of study that included substantial theory and supervised and assessed professional practice in clinical nutrition, medical nutrition therapy and food service management. **So, in Australia, all dietitians are nutritionists however nutritionists without a dietetics qualification cannot take on the expert role of a dietitian.**

Victorian universities offering undergraduate courses in nutrition, food science and/or dietetics include:
