## TEESDALE PS

The last couple of weeks we have been focusing on the importance of caring for our environment and that animals are apart of our beautiful environment. Children have been learning about different animals and they different environments they can live in. From making creative animal masks, to finger painting cheetah spots, the children have been showing great engagement and interest in this area. It's been great as always to see our children feeling a sense of pride in the creations they've made, and such interesting discussions that have come up between children and educators as we discover the great animal kingdom. We can't wait for what the children will get up to next! Rachael + Stacey
