New Bachelor of Occupational Therapy

ACU is delighted to announce that the [Bachelor of Occupational Therapy](#) will be offered at the Ballarat Campus from 2024.

Occupational therapists play an important role in the lives of individuals and communities enabling participation in occupations of self-care, productivity and leisure. To do this, occupational therapists need to know how humans function, and need the skills to practice competently and safely. Students will learn how to analyse and assess occupational performance; apply and evaluate interventions to enable occupational performance; and collaborate and communicate effectively with clients and their families and colleagues.

Students will undertake 1,000 hours of professional practice education, starting in the first year, working with people across the lifespan to help them overcome physical, cognitive or societal barriers to participation. The ACU Bachelor of Occupational Therapy has been developed to ensure new graduates will meet the competency standards of the [World Federation of Occupational Therapists \(WFOT\)](#) and [Occupational Therapy Council \(OTC\)](#).

New Aptitude Test as Alternative to the Casper

If you want to study an initial teacher education program at La Trobe, our AFTA is a free and on-demand alternative to the CASPer test.

La Trobe University has developed the [Aptitude for Teaching Assessment \(AFTA\)](#). Approved by the Victorian Institute of Teaching, it is a non-cognitive scenario-based aptitude test that students can use as an alternative to the CASPer test.

Please note: It can only be used for entry into initial teaching education programs at La Trobe.

Box Hill Institute Careers Expo

Box Hill Institute is holding a *free* Careers Expo and it has partnered with industry-leading employers, who will be onsite to provide information and answer all questions from a range of sectors including; *Health, Building and Construction, Beauty* and more. Students will be able to learn what is in demand in today's industries – and maybe even land a job! Food trucks and DJs will be on deck ensuring a fun-filled afternoon as students enjoy the opportunity to speak to the teachers and course experts about the exciting study options available at Box Hill Institute.

Date: Wednesday 18 October 2024
Time: 4.00pm – 7.00pm
Venue: Box Hill Town Hall, 1022 Whitehorse Rd, Box Hill VIC 3128

What do I need to remember to be successful in my first year of Uni?

- I should attend orientation and transition activities – ***that way I can find out about support and advisory services available to me!***
- I need to seek assistance to learn expectations of my lecturers – ***I will have to learn about tertiary essay writing, using sources, avoiding plagiarism, and managing my time, etc.***
- I must remember to ask for help – ***no-one will necessarily be offering any!***
- I will need to be an independent learner – ***my lecturers and tutors will not be reminding me about deadlines!***
- I will need to take charge of my own learning – ***no-one will be checking up on me to see if I am keeping up with work or assignments!***
- I will need to organise my time effectively – ***there are no bells to remind me where to be!***
- I must remember that my classes may be much larger than what I have been used to at school – ***I will receive less individual attention!***
- I must make friends – ***building new friendship groups will help me cope and help me stay motivated!***
- I will be learning new skills that will be critical for my success – ***I will have to learn important research and referencing skills!***

Nutrition and Dietetics Degrees in Victoria in 2023

According to the Dietitian Association of Australia (DAA) - [Dietitian or nutritionist | Dietitians Australia](#), there is a distinction made between dietitians and other occupations in the nutrition and food science field, including that of nutritionist. The key difference between a dietitian and a nutritionist is that, in addition to or as part of their qualification in human nutrition, a dietitian has undertaken a course of study that included substantial theory and supervised and assessed professional practice in clinical nutrition, medical nutrition therapy and food service management.

So, in Australia, all dietitians are nutritionists however nutritionists without a dietetics qualification cannot take on the expert role of a dietitian.

Victorian universities offering undergraduate courses in nutrition, food science and/or dietetics include:

Optometry Courses on offer in 2023

The [Good Universities Guide - Optometrist](#) states that *Optometrists perform eye examinations to determine the presence of vision problems and other eye conditions and disease. They treat or manage these problems by prescribing glasses, contact lenses, optical aids, vision therapy, medication (in the form of eye drops) or referral to an eye surgeon when required.*

Optometrists need to have a patient and caring manner; be able to carry out accurate and precise work, have good communication skills, and enjoy helping people.

To become an optometrist a student usually has to study optometry at university. Alternatively, they can complete a degree in vision science or a relevant area at university, followed by a postgraduate qualification in optometry. Prerequisite subjects, or assumed knowledge, in one or more of English, mathematics, chemistry, biology and physics are normally required. Entry to postgraduate courses usually requires completion of an appropriate bachelor degree. A number of universities in Australia offer these degrees. Universities have different prerequisites, and some have flexible entry requirements.

Optometry courses on offer in Australia include -
