HEADPHONES: SUPPORTING OUR STUDENTS IN THE DIGITAL AGE

Technology is an integral part of learning and teaching at LNPS. Much of the digital learning experiences require focussed listening. These include:

- *Listening to verbally recorded instructions and feedback from teachers and their peers*
- *Watching information videos*
- *Listening to audio books both independently and with others at a listening post*
- *Participating in online educational games and activities*
- *Listening to music while working independently to enhance focus and concentration*

To accommodate these learning experiences, headphones are an important part of today's classroom. LNPS has been able to source quality headphones that we have available for parents to purchase.

While students are welcome to bring in their own headphones from home, there are several reasons why we recommend the Leading Digital headphones:

- *High quality*
- *Strong and durable - designed specifically for students (these headphones can twist, bend and flex without causing damage)*
- *Tried and tested successfully in many schools*
- *Recommend option 1 for JP and option 2 for Middle-Upper as they are adjustable.*

These quality headphones will be available to purchase through the school for **\$30**.

If you are interested in purchasing a pair, please complete the following form and return it to your child's teacher by **Friday, 18th August**. Please do not send any money. We will send an invoice home.

Kind regards,

Torrens team
