

TEM

A C A D E M Y

THE PROGRAM

Following on from the success of last year's development sessions, we are back bigger and better. This program will cater for individual needs and be delivered by expert coaches with a focus on developing the hockey player and the athlete. Designed by Hugh McLaughlin (Level 3 Accredited and 2019 U21 Victorian Womens Assistant Coach), the program will develop technical skills, game sense and match play. This year we have also partnered with Run Ready to help build the athletic side of the game in speed, agility and fitness.
