What is CU Swinburne?

Children's University(CU)Swinburne is an innovative program that expands young people's opportunities and builds confidence in learning.

Who can apply?

The CU program is a great option for junior students looking to extend themselves academically, and for senior students looking to gain community service and leadership experience.

CU Swinburne for years 7-8

CU Swinburne supports students to explore their interests via a range of activities that they can do outside of classroom time. All activities are linked to careers and their pathways to expand our members **future opportunities!** Members receive a **'Passport to Learning'** for logging their hours of learning. Upon reaching milestones in the program, members are invited to the CU graduation at Swinburne, donning caps and gowns as their achievements are celebrated.

CU for years 9-12

For senior students, CU Swinburne becomes a volunteer and leadership program. Members are given a **'Passport to Volunteering'**, to log their hours for:

- **Volunteering** - in the community, within their school environment and within our program.
- Building their **leadership** and communication skills as they develop and run activities at local partner CUS primary schools.

'Passport to Volunteering' members will also be invited to attend our Swinburne campus for:

- Graduations
- Workshops
- Mentoring sessions
- Tours
- Immersion days

All adding toward their hours for graduation.

CUS aims to:

- Build leadership and interpersonal skills
- Open career pathways
- Improve study skills
- Recognise each member's achievements and celebrate them.
