

# The Beginning...

Written by 5M

“AAAAHHHH IT’S THE FIRST DAY OF SCHOOL!” For some people it’s scary and for others exciting. It’s only been three weeks since school started and we have experienced a lot of incredible things so far in our Year 5 careers. We’ve had the opportunity to learn new games, helping kindergarteners and most of all learn exciting things. We had an amusing time in 5M with our teacher Miss May, the greatest teacher ever.

Something that all new Year 5’s have been looking forward to is the ‘Bring Your Own Device’ (BYOD) program. Bringing our own devices and taking care of them has been a new aspect of school, but it has been fantastic to be able to integrate technology into our daily learning.

Year 5 has a new experience for us. Some of us were scared at the beginning but our teacher, Miss May, fellow year 5 teachers and peers have been very supportive. We can’t wait to see where the year takes us.
