(THIS IS NOT PLAY THERAPY)

****Places are limited — enrol now and let the creativity begin!****

ArtLab, is a space for children to explore, create and take home something they've made themselves. Children get to have:

- Hands-on projects — children create something tangible each session and get to take them home.

- Creative freedom — opportunities to experiment and make their own selections of resources.
- Variety — different art forms and activities keep the 6 weeks interesting.
- 90 minutes of focused creative time — enough time to settle in, create and finish a project without feeling rushed.
- Confidence and self-expression — children can develop their own creative style.
