SUMMER CAMP NOMINATION LETTER

To Whom It May Concern:

It is with pleasure that I write to nominate …… **(student name).**
to participate in the Summer Camp programs for Gifted and Talented students.

The programs are developed and presented by BRAINways EDUCATION.

Program Dates/Times: See timetable below
Place: University of Western Australia – Crawley Campus
Cost: $99/day or $196/two days

For enrolment and payment, please access
https://registration.brainways.com.au/summer_camp_perth/

My recommendation is based on the confidence that the nominated student will greatly benefit, enjoy and positively contribute to the program.

Places in the programs are offered to students in all Perth schools, and the availability is very limited. Therefore, if you are interested in your child participating in the program, please complete the online enrolment as soon as possible.

If you have any queries, please do not hesitate to contact me.

Yours sincerely,

Principal/ G&T Coordinator/ Classroom Teacher

Program Times/Dates:

Dates	Times	Program – Years 2-4	Program – Years 5-7
23/01	9:30am – 11:45am	To Cheat or Not to Cheat: The Mathematics of Plagiarism	The Science of Stage Fright
23/01	12:15pm – 2:30pm	The Science of Stage Fright	To Cheat or Not to Cheat: The Mathematics of Plagiarism
24/01	9:30am – 11:45am	The Essence of Humanity in Science Fiction	Rollercoaster Science
24/01	12:15pm – 2:30pm	Rollercoaster Science	The Essence of Humanity in Science Fiction

To Cheat or Not to Cheat: The Mathematics of Plagiarism program will introduce concepts of statistical analysis, their interpretation and application.

The Science of Stage Fright program will explore what stage fright is, its physiological underpinning, and the psychology behind overcoming stage fright.

Rollercoaster Science program will explore examples of scientific principles in action in order to understand the scientific concepts that enable rollercoaster rides to deliver exciting thrills in a safe environment.

The Essence of Humanity in Science Fiction program is an exploration of key philosophical issues through various works of science fiction, revealing what can thinking about alternative possibilities tell us about our world, and why.
