## April Vac Care Newsletter

Dear Parents,

We would like to welcome new children and families who have joined our Vacation Care community. We hope you enjoyed your time with us and look forward to seeing you again in the future!

We would also like to welcome back all of our existing families. It's great to see so many familiar faces and we appreciate your commitment to our service.

The children enjoyed having the opportunity to make new friends from a variety of different schools and develop their social interaction skills and develop independence.

This Vacation Care was very different to normal as the children remained at the service for the whole duration of the school holidays. Although the children stayed at the service this didn't mean that it was action packed and full of fun!

The children spent time participating in a variety of programmed and spontaneous activities such as playing on the junior playground, chalk drawing, soccer, cricket, floor is lava and many more.

Some of the programmed activities included cooking Anzac biscuits, participating in OSHC survivor challenges, plasticine modelling, wheels day, mask making and a scavenger hunt!

Overall the 2 weeks of school holidays were filled with fun, laughter and creativity!

The service would like to thank all families for their ongoing support and commitment to the service especially during the COVID19 pandemic.

Our service prides itself on delivering high quality programs that range in diversity; including educational, cultural and recreational experiences. If you have any feedback about the April Vacation Care please contact

Thank you  
Maria Morello  
OSHC Director

## Painting Day:

The children were able to let their creative energy flow through free choice painting. Some of the children painted pictures with brushes others with their hands, cotton buds or sponges to create their unique masterpieces.

## Easter Basket Making & Easter Egg Hunt

During the pupil free day week the children were able to create their own Easter egg basket using a paper template. The children then had the opportunity to use their Easter egg basket and participate in an Easter egg hunt around the OSHC buildings. The children had a great time and most importantly loved eating all their Easter eggs!

## Fitness Fun Day

The children spent the morning participating in a variety of physical activities such as red rover, rob the nest and other interactive sporting drills.

**OSHC Survivor:** The children were able to choose their 'tribe' and create posters to represent their teams. These teams then participated in a variety of challenges and exercises throughout the day to determine the ultimate survivor!

**Wheel's Day:** The children were encouraged to bring their own sets of wheels whether it be bikes, scooters or skateboards and take them for a spin in the quadrangle. The children enjoyed helping their peers learn different tricks as well as showing off their own skills!

**Mask Making:** The children were able to access a variety of craft materials such as feathers, beads, textures, stickers and much more to create a unique mask. The children utilised their fine motor skills when cutting and decorating their masks and were able to express their ideas and creativity.

**Plasticine Modelling:** The children enjoyed participating in the sensory activity of plasticine modelling. Some of the children created plasticine monsters others created plasticine cupcakes and sweets. The children were proud of their creations and were able to bring them home with them.

**Birthday!** During the holidays one of the children celebrated his birthday at OSHC. The children were excited to help decorate the activity room and sing for Cassius's special day!

## Spontaneous Play:
