

# TheirCare

Where Kids love to be!

Hello and welcome back!

I hope everyone had a happy and safe holiday break and I look forward to hearing all the awesome stories when we get to catch up in term 4.

After the huge success of our holiday program, we're excited to jump straight into term 4 and within the first couple of weeks that's exactly what we have done.

To get started, we have taken the time to listen to each child and what they want to achieve during term 4 and, as a service, what we want to accomplish together.

The children have provided amazing ideas and have set some exciting goals and projects.

Starting with a massive animal collage! Originating as a billboard painting activity, the children loved it so much that it has now become a huge collaborative project that will span the next few weeks, getting both children and staff to join in to contribute their ideas and artistic talents to make a masterpiece.

With many more amazing projects to come, be sure to watch this space as you will not be disappointed.
