Early Entry Program – 2024 Entry

A different way to enter university that will not depend on your ATAR.

The [2024 Early Entry Program | Swinburne](#) is a unique opportunity for current Year 12 students (domestic and onshore International) to receive a conditional offer based on a recommendation by the school, and not based on an ATAR.

Applications are open, and close on 9 October 2023. Successful students will receive a conditional offer and the offer will become unconditional should students complete Year 12 and meet the course prerequisites – particularly English (study score of 25) or EAL (study score of 30).

Details of the application process, as well as participating courses can be found below.

1. Application process

Students must organise a recommendation from a school representative – the school’s principal, the year level coordinator, Head of House, or Career Practitioner – in order to proceed with an application.

2. Eligible courses

Courses that will be offered through this program can be found at [Eligible Courses](#), and students can only apply for one course.

Students will be required to complete 3 questions in a *Next Gen Now* questionnaire, and students will be asked to provide a 200-word statement per question.

3. Recommendation form

Once an application is submitted, students will receive a confirmation email which will include the form they need to forward onto their chosen school representative, who will complete the form and return it to Swinburne, who will match it with the student’s application.

Students must also make a VTAC application.

News from the University of Tasmania (UTAS)

➤ New Bachelor of Biomedicine

The University of Tasmania (UTAS) will be offering the *new* Bachelor of Biomedicine from semester 1, 2024. This biomedicine course is designed and will be taught by active medical researchers at the Tasmanian School of Medicine and the School of Health Sciences.

It also draws on the expertise of the specialist research and teaching institutes: the Menzies Institute for Medical Research, and the Wicking Dementia Research and Education Centre.

As the single university for Tasmania, students will have unparalleled access and connection to the local community, health system, and institutes. This means that throughout their studies, students are learning from experts who are directly engaged with the health sector both locally, nationally, and internationally.

Chemistry is a prerequisite for entry into this course. This degree may allow further study into medicine.

Find out more at [Biomedicine | Study at the University of Tasmania](#).

➤ **Bachelor of Pharmacy with Honours – Fast Track**

Introducing Australia's only 3-year fast-track Pharmacy degree. The new fast-track [Bachelor of Pharmacy with Honours](#) adopts a trimester teaching model, allowing students to complete a traditional 4-year degree in just 3 years and get into the workplace sooner. Placements can be conducted in Tasmania or mainland Australia, as well as internationally. Year 12 maths and chemistry are prerequisites for this course.

REMINDER: University Clinical Aptitude Test

The ***University Clinical Aptitude Test (UCAT)*** is an admissions test used by the UCAT ANZ Consortium of universities in Australia and New Zealand for their ***medical, dental, and clinical science*** degree programs. Universities requiring the UCAT are listed at this link - [Universities requiring the UCAT](#). Students intending to apply for courses requiring the UCAT at any of these universities are reminded that they will need to **book a test**.

Bookings close on **Wednesday 17 May 2023**. The testing dates will be from **3 July 2023 to 12 August 2023**.

Principal's Recommendation Scheme at CQU

At CQUniversity we believe senior schooling results are important, but we also believe that other factors such as motivation, talent, and passion can lead to student success at university. So, we have introduced a pilot program, the Principal's Recommendation Scheme, that allows Year 12 students to apply to a CQUniversity course based on the recommendation of their high school Principal rather than ATAR.

So, CQUniversity's Principal's Recommendation Scheme provides an alternate entry pathway to CQUniversity courses that is based on the recommendation of a students' high school Principal and not reliant on whether they have received an ATAR.

Applications for 2024 are open and close on 1 December 2023. Find out more at [Principal's Recommendation Scheme at CQU](#).
